## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/29/2007 has been entered.

### ***Response to Arguments***

2. Applicant's arguments in light of the amended claims filed 05/04/2007, with respect to claims 1-21 have been fully considered and are persuasive. The prior art rejections of claims 1-21 have been withdrawn.

3. The double patenting rejection of claims 1-21 has been vacated based on the amendment.

### ***Drawings***

4. The drawings filed 05/04/2007 are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "340" has been used to designate both LINK and PLB. The PLB should be labeled "390". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of

Art Unit: 2182

an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

5. Claims 1-21 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, ***all*** the limitations of the independent claim(s) (*claims 1,9,10,18,19 and 20*), particularly details of the descriptor logic in combinations with the apparatus, data processor and data processing system employing Logical Communication Port architecture wherein said Logical Communication Port architecture comprises LCP Clients an LCP Manager resident in the kernel space and at least one LCP Context resident in an adapter; and wherein an LCP client can be located in one of user application space and the kernel.

***Conclusion***

6. This application is in condition for allowance except for the following formal matters: objection to drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
